Wind Investments:

Total Invested: $7,498,007,862

Total Installed Capacity: 3,153 MW

➢ Total Number of Projects: 29
➢ Equivalent to 12.4% of Oregon’s net electricity generation in 2014 and capable of electrifying approximately 695,000 Oregon households annually, nearly half of Oregon’s total of 1,516,456 households.
➢ Pounds of CO₂ mitigated: Over 4.69 million metric tons annually
  ○ CO₂ mitigated is equivalent to nearly half of Oregon’s 2013 total carbon emissions from electricity generation (9.5 million metric tons).
➢ Oregon currently ranks 6th out of any state in wind power capacity installed as of the first quarter of 2015.

Job Creation:

Direct Construction: 2,112
Permanent On-Site: 181

Public Revenue:

➢ Total Cumulative: $151,951,135
➢ Estimated Annual Land Lease Payments: $9.5 million

Solar Investments:

Total Invested: $1,846,804,186

Total Installed Capacity: 104 MW

➢ Total number of installations: 11,608
➢ Total installation jobs created: 772

Solar Manufacturing:

➢ Estimated job creation: 1671

Public Revenue:

➢ Estimated Payments for Utility Scale Solar: $562,500 Annually
Geothermal Investments:

Total Invested: $270,325,745

Total Operating Capacity: 24 MW
- Number of installations: 3
- Estimated Capacity in Development: 90-114 MW
- Over $88 million invested in development and exploration

Public Revenue:
- Estimated Future Annual Payments: $1.3 million

Estimated Job Creation: 320

Bioenergy Investments:

Total Invested: $223,291,533

Total Installed Capacity: 68.65 MW
- Number of installations: 20

Job Creation:
- Direct Construction: 210
- Permanent On-Site: 94
